DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4, 15, 20, and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Pearson (3,279,662). With respect to Claims 1 and 21, Pearson discloses a device for pressing garments having sleeves with cuffs and cuff plackets. The device has an inflatable bag that projects into the cuff portion of the garment and a stiffening device (detail 37) supporting and shaping the garment in the cuff placket region during the pressing operation. With respect to Claims 2 and 3, the stiffening device has a curved surface like that of a tongue or a shoehorn. With respect to Claim 4, the stiffening device extends into the cuff region of the garment providing support and shape to the cuff during the pressing operation. With respect to Claim 15, the end region of the inflatable bag is adjacent the cuff portion in the pressing operation. The end region of the inflatable bag is secured to a plate 39 that is not air permeable. With respect to Claim 20, the device is suitable for pressing a shirt or a blouse. With respect to Claims 23-26, 34, and 39, the device disclosed by Pearson carries out the claimed method steps.

Allowable Subject Matter

3. Claim 40 is allowed.

Art Unit: 3765

4. Claims 5-14, 16-19, 22, 27-33, and 35-38 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
